

Luuk de Goede

Amsterdam · 06-40911100 · luukdegoede@outlook.com · born 27-10-1999 · Dutch

PROFILE

As a social guy, I like working in a team as well as individually, towards a real result. Problems that need a lot of thinking are the ones I look forward to, and when a situation gets difficult, calm is my natural state. Open and committed, with an appetite for learning new things and for discussing them with other people, from engineering to anything else. What I am looking for is a driven company with a motivated team and work that matters. A good part of my free time goes into AI, using it and following where it is heading, and the rest into sport: running, swimming and lifting, and a half Ironman earlier this year.

TRAINING

- Sep 2023 – Sep 2026 ○ **University of Twente**
Master Robotics
- Sep 2017 – Aug 2021 ○ **Avans University of Applied Sciences**
